Flat Rate Option Available

QUALITY Superior corrosion protection on all replacement parts versus OEM. No more corrosion issues. **One (1) year** warranty.

DELIVERY Rapid delivery with **ten (10) day** turn around time.

Lavatory Vacuum Generator Technical Sheet

PRODUCT PN: 14330-375
Aircraft Eligibility: ERJ 170-190, A320 Series
ATA Chapter: 38-31-81 (Zodiac)

FEATURES

- Proprietary DER/FAA approved repair with significantly improved manufactured parts and coating processes to extend the life of components.
- Warranty: Industry leading 12 month warranty on all flat rate overhauls. The gold standard of Vacuum Generator warranties.
- Included New Parts: Impellers, Scroll Assembly, Second Stage Assembly, Inlet Assembly, Bearings, Diffuser Plate, Deswirl Housing, Carbon Seal Assembly, and Gaskets
- Motor: All worn parts and bearings are replaced. Motor shaft and rotating group trued and balance for optimal operation.
- One flat rate price for all the upgrades of your core. AOG Aviation Spares is the value leader in Vacuum Generator systems - with more robust parts and repair processes for a much longer MTBR.

ADVANTAGES

- Increased life cycle versus the OEM.
- Premium warranty period that covers all the parts for a full 12 months.
- Complete overhaul with new parts and greater reliability for half the OEM price. No corroded parts.
- Ten (10) day TAT means less down time with less frequent removal rates and greater reliability.

BENEFITS

- 95% of the parts are replaced with skillfully engineered and improved new parts. Refurbished or old parts are not used on the units. The motor is rebuilt and balanced for a repaired unit that is the most robust and longest lasting in the industry.
- AOG Aviation Spares economical pricing without add backs simplifies inventory and budgetary processes.
