

Twin Otter

Upgrade Options Exterior Lighting

Upgrade your Twin Otter to LED with Whelen Engineering TSO'd LED Lights. There are many advantages of converting your aircraft to LED including reducing electrical load, brighter lights = safer flying and less maintenance time replacing legacy bulbs. Upgrade landing and taxi lighting with a Lopresti Boom Beam Kit, producing 3-5 times more light! A **KADEX** Customer Service Representative can walk you thru the process and **KADEX** stocks all part numbers you need to upgrade your Twin Otter exterior lighting.
