

Reflecting on our journey, it's astounding to realize that 30 years have passed. At KADEX, we attribute our enduring success to the exceptional individuals, both past and present, who have contributed to our growth. In 1994, our venture began humbly in a 1500 sq ft aspenite facility, driven by the determination of Ken, Glenda, Rob, and JL, amidst personal responsibilities and financial challenges, yet united by an unwavering dedication to service excellence. Today, we proudly operate from a 35,000 sq ft facility, boasting a team of 45 committed professionals. We extend our deepest gratitude to our employees for their unwavering dedication and excellence, to their families for their steadfast support, to our esteemed customers, and to our dependable supply chain and support partners. As we celebrate our achievements we're committed to keeping up the great work and delivering top-notch service and value to our customers.

— John, Ken, Ellie, Jeremy and Jordan

## SELF ILLUMINATED SIGNS

132484-XX, AC/7K, 130-380006-0003  
0 to 7 years from date of manufacture -  
No Repeating Inspection.

After 7 years in service....Inspection with  
the T-Light Comparator is Required.

The purchase of the Tool, doesn't always  
make sense for a single aircraft or small  
fleet customer. The better option for  
them is to replace the signs every 7 years.
