

# AS350

## Upgrade Options Exterior/Interior Lighting

Upgrade your AS350 to LED with Whelen Engineering TSO'd LED Lights and enhance landing light with a Lopresti Boom Beam Kit. There are many advantages of converting your aircraft to LED including reducing electrical load, brighter lights = safer flying and less maintenance time replacing legacy bulbs. A **KADEX** Customer Service Representative can walk you thru the process and **KADEX** stocks all part numbers you need to upgrade your AS350 exterior and interior lighting.
