

# Bell 206

## Upgrade Options Exterior/Interior Lighting

Upgrade your Bell 206 to LED with Whelen Engineering TSO'd LED Lights and Add a Lopresti Boom Beam HID Lighting Kit for extra visibility. There are many advantages of converting your aircraft to LED including reducing electrical load, brighter lights = safer flying and less maintenance time replacing legacy bulbs. A **KADEX** Customer Service Representative can walk you thru the process and **KADEX** stocks all part numbers you will need to upgrade your Bell 206 exterior and interior lighting.
