PMA PARTS
AVAILABLE AT KADEX

KADEX is pleased to represent, distribute, stock and develop **HEMICO PMA** parts and services.

Hemico Incorporated's FAA Approved PMA parts are superior or equal to OEM quality and performance, undergoing a thorough design and FAA review process. The parts are then manufactured under an FAA approved quality system, within the oversight of our FAA Manufacturing Inspection District Office. Each PMA part is released by an in-house DMIR with a Form 8130.

Hemico Incorporated & **KADEX** offer an affordable and high quality PMA development process in support of equipment on many regional airliners, corporate and general aviation aircraft.

Do you need to improve the bottom line, or require a viable alternative to slow or non-existent OEM parts availability, consider PMA parts.

Hemico Incorporated controls its quality and manufacturing process by using its own engineering team and machine shop, in addition to selecting and closely monitoring quality outside services.
