Ice Shield™ De-icing Systems

Faster. Better. Smarter.

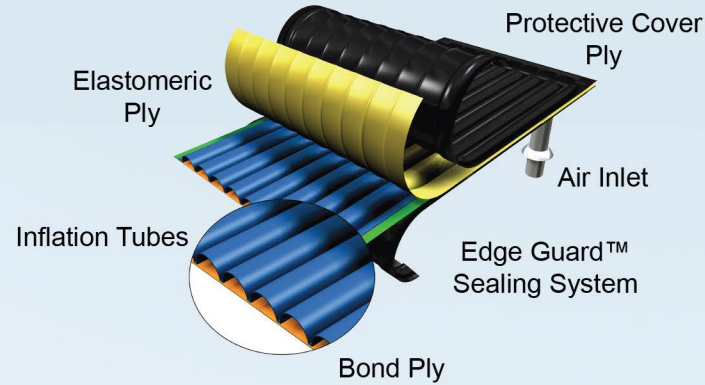

"Ice Shield is the best value in the de-ice market. I always recommend Ice Shield products due to their high quality and ease of installation."

**~Chad Muse
DOM, The H Company**

Ice Protection You Can Count On

Ice Shield™ pneumatic de-ice boots work by activating the inflation tubes using bleed air to remove ice during both the inflation and deflation cycles.

This process allows the removal of ice accumulation from the leading edge.
