## **Mission**

ASK WHY, BE DIFFERENT

-  Prioritize quality and service, making daily efforts to improve.
-  Approach every task from the customer's prospective.
-  Build valuable customer relationships rooted in loyalty.

**SERVING THE PMA  
AIRCRAFT PARTS  
MARKET WITH TOP  
QUALITY PRODUCT,  
PRICE & DELIVERY.**

## Philosophy

### CHANGE FOR THE BETTER

Our mantra, Kaizen, is Japanese for “change for the better,” and refers to a focus on small, continuous improvement of processes in manufacturing, engineering, game development, and business management.

By eliminating waste, or “muda,” (waste is any activity that does not add value) we are able to improve our ability to serve you every day.

## Services

### OUR FOCUS IS YOU

- Together, we can identify your specific needs.
- We work together to design an optimal solution tailored for you.
- Your solution is implemented.
- Our ongoing support is there for you every step of the way.

## Product Development

### OUR PROCESS

- 1.** Determine the product you need based on usage per year and cost of each piece.
- 2.** Collect as many supporting documents as possible. Examples would be CMM manuals, drawings, invoices, packing list, certifications, or FAA 8130-3. At the very least, we will need the CMM.
- 3.** Meet with our engineering team either by phone or in person.
- 4.** Develop a product plan and estimated dates of completion for each step of the product plan (depending on the complexity of the part, there could be many steps in the product plan).

## Products

### CONTACT US FOR UPDATES!

Featured Products Include:

- Bearings
- Cargo Floor Panel Fittings
- Coffee Makers
- Electrical Brushes
- Generator Parts
- Lavatory Heating
- Non-Metallic Spacers
- O-Rings
- Plungers
- Propeller De-Ice Blocks
- Sealing Shafts
- Slide Plates
- Water Boilers
