ICE SHIELD PRESSURE SENSITIVE ADHESIVE (PSA) WING BOOT APPLICATION

Ice Shield PSA™ is a Pressure Sensitive Adhesive (PSA) installation application for de-icers. Ice Shield PSA boots are standard Ice Shield boots with the Pressure Sensitive Adhesive applied at the factory. Ice Shield PSA parts are offered for most of Ice Shield's certified airframes. This addition to the Ice Shield product line allows customers the choice of either the PSA application or traditional contact adhesive application.

Same Quality, Same Reliability,
New Application.
