B1900

....and More

Lear Operators:

How Many Times do You Want to Change Brakes this Year?

Rapco Fleet Support, Inc. has offered quality, FAA PMA approved replacement brake components for Learjets since 1988. In addition to substantial cost savings, operators have experienced up to 40% more cycles using RFS wear parts and overhauls versus the OEM.

RFS's continuing efforts to maintain low costs, while excelling in product quality, have influenced OEM prices to plummet from an embarrassing high of \$3,600, per brake, to a more reasonable cost of \$800. Recently, some OEM vendors have offered to match the low price offered by RFS. Even so, with the high cost of removal and replacement of about \$500, as well as the immeasurable expense of down time, operators would need to purchase the quicker wearing OEM for 1/2 the cost of RFS to maintain the same overall value.

Keep your aircraft flying.....and do it for less dollars per landing.

Hot-Pac Kit Applications

Order the corresponding kit to overhaul your own brakes

WHAT REALLY COMES WITH THESE BOXES?

OEM's

- Annual price increases
- Slow delivery
- Arrogant, threatening attitude
- Old technology
- Eligibility through FAA-PMA

RFS, Inc.

- Large cost savings over OEM
- Quick delivery
- Helpful attitude
- New technology
- Eligibility through FAA-PMA

* Citation 500 & 550

* Learjet 25, 31, 35, 35A, 36, 36A and 55

* Beechcraft B1900

* Beechcraft B99, King Air 100, 200 & High Float King Air

* Fairchild Metro Series, High-Gross Metro

* Embraer EMB-120

All of our customers have experienced the differences between Rapco Fleet Support, Inc. and the big OEM's. We're quicker, easier to deal with, less expensive, small and aggressive. They're the opposite.

The only similarity is both products are installed in the same wheel assembly with FAA-PMA installation authority. When OEM parts are installed as a replacement, eligibility is through FAA-PMA authority. Same as our brake parts.

The OEM's received their PMA by simply being on the aircraft when the TC holder received certification. RFS earned their PMA by proving performance with hundreds of stops on a dynamometer and a strict FAA mandated flight test schedule. Testing included normal landings under different conditions as well as at wear-limit Rejected Takeoff's. Our brake parts exceed OEM performance standards and airworthiness requirements.

The next time you need replacement brake parts, go with the best, not the biggest.

RFS

RAPCO FLEET SUPPORT, inc.

- * The FAA says that PMA parts manufacturers have to prove that the part is as good or better than the O.E.M. in order to earn the PMA. (The OEM salesman didn't tell me that!)
- * RFS says their parts cost less. Why are we paying so much?
Call RFS @ (262) 367-6210 or www.rfsbrakes.com

Why is the OEM calling me direct? Where's the distributor salesman?
